

Premium paint markers for repair professionals

4Plastic Auto Scribbler water-based paint markers are designed for making repair notations on today's modern automotive and commercial transport finishes. Highly recommended by professionals, they clean easily on rubber, alloys, headlight lenses, plastic bumpers, metal panels and glass. The specially formulated non-toxic ink is engineered to be fully removable, leaving no stains or shadow marks on paint after washing.

Auto Scribbler markers feature a specialized polyester-blend tip that will not scratch automotive surfaces. An innovative spring system controls the absorption and release of ink, delivering a consistent, long-lasting flow that ensures a smooth, leak-free writing experience every time.

For more information, please contact your SEM® representative.

Water-based ink formulated for easy washing or wiping with alcohol-based solvents

Advanced synthetic tip resists breakdown and guaranteed not to scratch any surface

Mechanically designed for a steady flow of paint and no clogging in the barrel

Available in a wide range of easy-to-see colors

Part	Color
4P-30-011	● Green
4P-30-021	● Red
4P-30-031	● Yellow
4P-30-041	○ White
4P-30-061	● Pink
4P-30-071	● Blue

Each box contains 6 markers
