

# VCS™ VERSATILE CUP SYSTEM

## STANDARD OPERATING PROCEDURE

1

### INSTALL ADAPTER

Review crossover sheet to determine the correct adapter for your spray gun.

Insert adapter into spray gun and tighten.

2

### INSTALL LINER

Insert liner into hard cup. Make sure to align vent tabs on liner with slots in bottom of hard cup.

Turn liner clockwise to lock in place.

Fill cup with desired material.

3

### ATTACH LID

Firmly press lid onto assembled cup and liner.

Lock down all four lid tabs.

4

### ATTACH CUP TO SPRAY GUN

Press cup adapter onto assembled cup. Make sure to align locking tabs on adapter to corresponding tabs on lid.

Turn clockwise until lid locks in place.

⚠ Locking only takes a quarter turn.

5

### OPEN/CLOSE RUBBER VENT

Open rubber vent in liner for most spray applications.

For inverted spray applications, close vent and allow liner to collapse.

⚠ Don't forget to close vent for liquids storage or when inverting.
